

ANIMAL ADDENDUM

Name of Parade Group or Organization

Please carefully assess your group's and animal's ability to be comfortable around crowds and music, and their ability to keep pace with the parade and avoid stopping along the route.

I certify that all animals participating in the Alexandria Scottish Christmas Walk Parade are current on all vaccinations and agree to the following:

- To only bring animals that are up to date on their Rabies and other vaccinations and will be prepared to present vaccination paperwork for every animal participant in the parade should event personnel or the City of Alexandria officials request it on parade day.
- All canine participants should have a lead no longer than 6 feet. The use of retractable or extendable leashes is not permitted out of safety concerns in a crowded event environment.
- All animal waste should be cleaned up and disposed of during the parade by participants. Please have someone in your group dedicated and responsible for this task, and contact Parade Producers with any concerns.
- All horses and donkeys should have a bag to catch droppings.

Participant Name	Animal Name and Breed

For groups with more participants, please copy this page and have all participants provide information.
